

Ads built to be tested, not admired.

I'm Turki, an AI UGC specialist. I generate the talent, the voice and the b-roll, then cut them into short-form direct-response creative that ships straight into the ad account.

WHERE IT ENDS UP

The same cut, native to three feeds.

Every creative is graded, captioned and framed for the placement it runs in — safe zones respected, hook inside the first three seconds, legible with the sound off.

01 TikTok · For You

02 Instagram · Reels

03 Facebook · Feed

SELECTED CAMPAIGNS

Eight builds,
start to export.

Campaign 01

 Remineralizing Gum

Car-selfie UGC with word-by-word captions. Every claim — whitening, enamel, xylitol — is backed by a search result on screen before the three flavours land on the close.

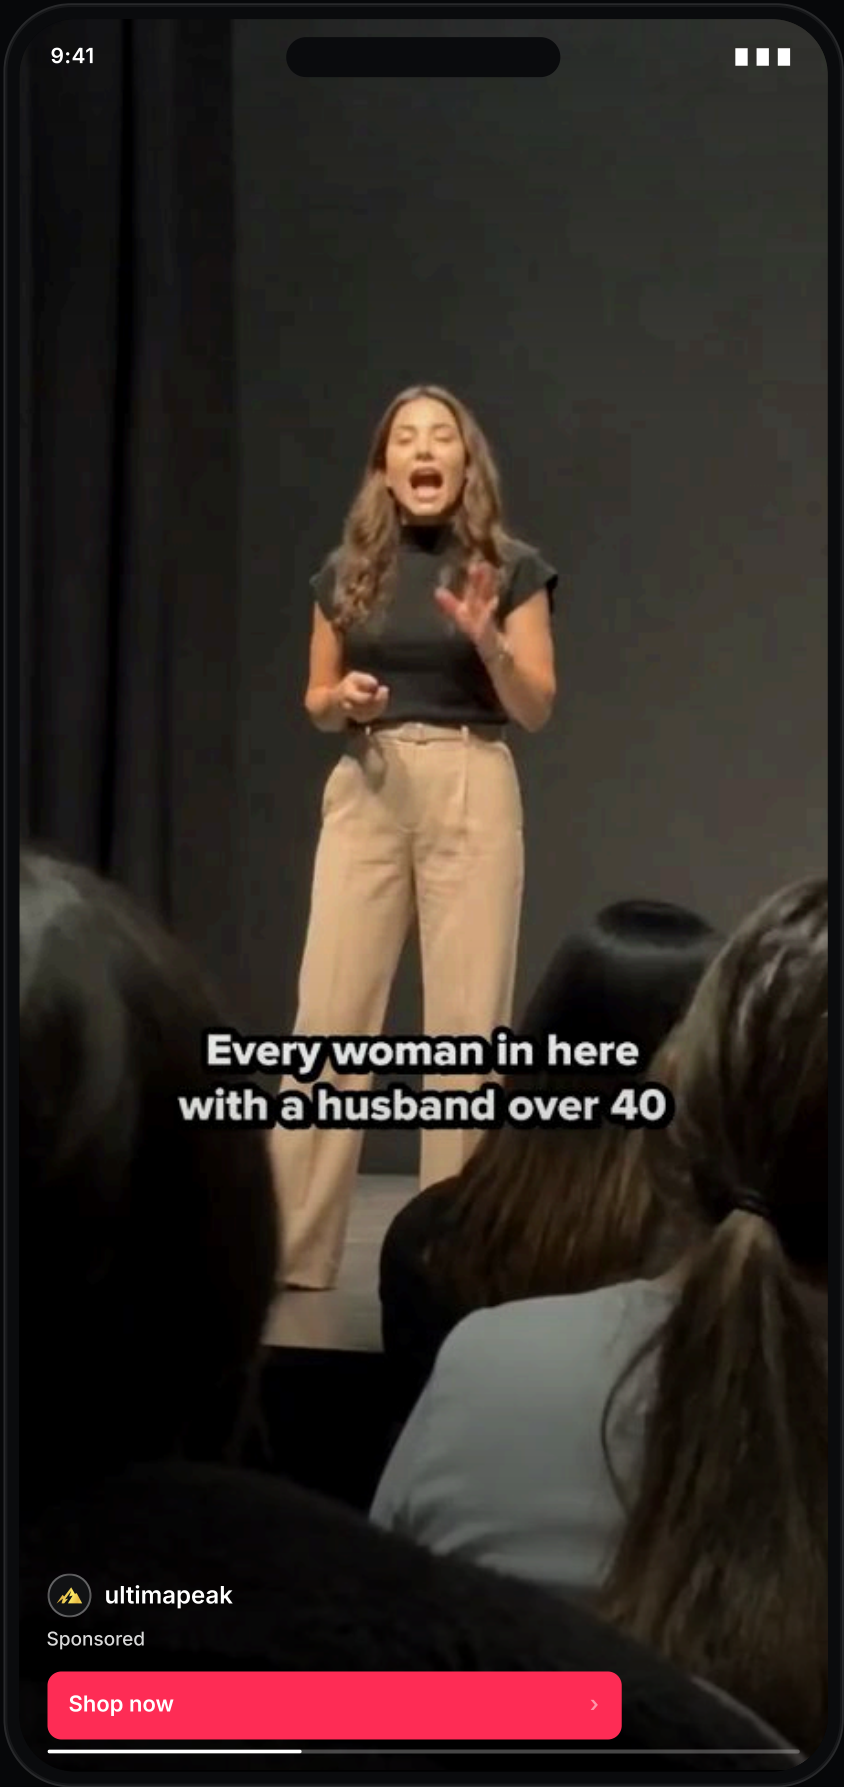

Brand	Larine ↗
Vertical	Oral care · DTC
Format	Car-selfie UGC
Runtime	0:29

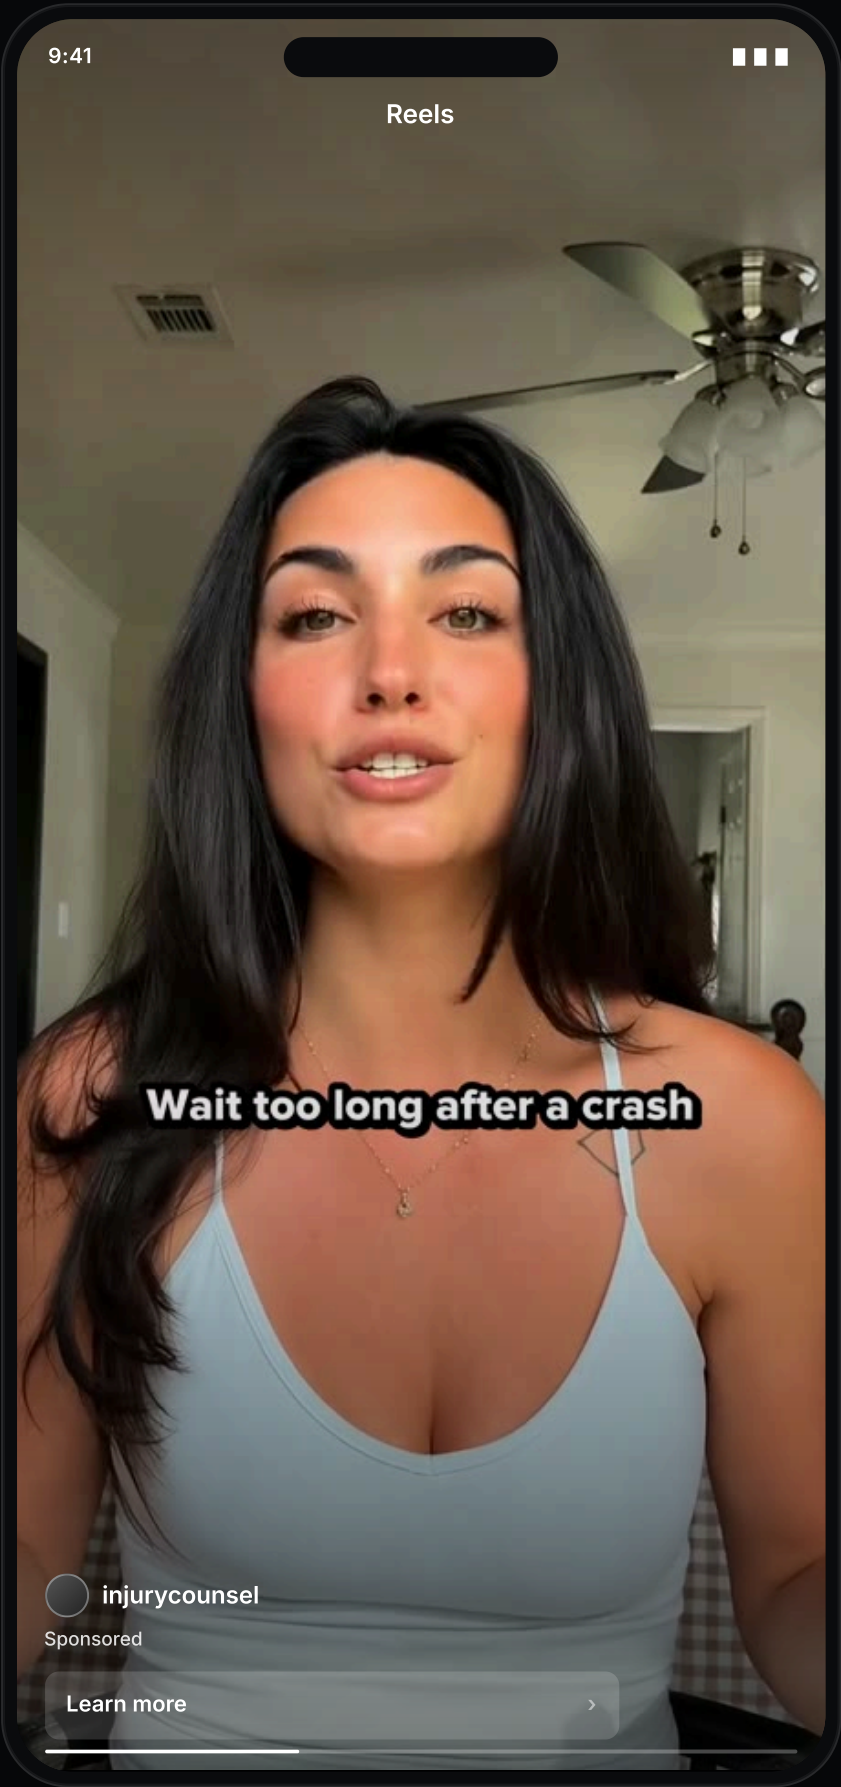

Campaign 02

A supplement angle shot as a stage moment rather than a bathroom selfie. The presenter, the room and the crowd are all generated, then cut so the callout lands before the first scroll.

Brand	UltimaPeak
Vertical	Supplement · DTC
Placement	TikTok · Reels
Built with	HeyGen · ElevenLabs · Higgsfield
Delivered	3 hook variants

Campaign 03

Injury Counsel

An organic-style talking head that plays like a warning from a friend, not a pitch from a firm. Neck-brace and roadside inserts break up the read, and the captions carry the whole claim with the sound off.

Brand	Injury Counsel
Vertical	Legal · Lead gen
Placement	Facebook · Reels
Format	Organic UGC
Runtime	0:55

Campaign 04

mypatches

Nerve Patch

A kitchen-counter testimonial cut against glowing nerve-pathway b-roll that shows the ingredients at work, then a wall of reviews and the offer card to close.

Brand	mypatches ↗
Vertical	Supplement · DTC
Format	UGC + animated b-roll
Runtime	1:13

Campaign 05

Rootless Plants

A skeptic’s confession from the living room. She opens on the plastic-tree disappointment every shopper fears, then walks the camera into a golden Heritage Maple until you can see the leaf veins and the warm gradient for yourself. The close is one line: just read the reviews. They sold me.

Brand	Rootless Plants
Vertical	Home decor · Faux trees
Format	Skeptic-to-believer UGC
Runtime	0:38

Campaign 06

The Perfect Jean

The hook is a pain every desk worker knows: nine hours in stiff denim. The proof is a squat at a server rack, then a split-screen of old jeans against The Perfect Jean after a big lunch. Neon size tags run W28 to W52 before the 15% off card closes it.

Brand	The Perfect Jean
Vertical	Apparel · Jeans · DTC
Format	Split-screen demo UGC
Runtime	0:37

Campaign 07

Southern Fry Kings

A food creator who has had enough of viral food hype, so he fries the proof on camera. A rolling pot of oil, a tray of golden chicken and a bite you can almost hear sell the Kings Chicken Original Creole fry batter: seasoned all the way through, with the bag in frame the whole time.

Brand	Southern Fry Kings
Vertical	Food · Chicken batter · DTC
Format	Skeptic-hook UGC
Runtime	0:22

Animated spot

A fully animated route for an angle live action could not carry. Same discipline as the UGC cuts — hook first, captions burned in, built to be read at arm’s length on a phone.

Brand	Turki · in-house
Vertical	Animation
Placement	TikTok · Reels
Built with	Higgsfield · After Effects
Delivered	3 hook variants

THE STACK

HeyGen. ElevenLabs. Higgsfield. Premiere Pro.

Nothing is stock and nothing is a template. Talent, voice and b-roll are generated per script in the first three, then cut by hand in the fourth.

01

HeyGen

TALENT

The presenter is generated to the script — face, wardrobe, room and eyeline chosen for the angle, not pulled off a shelf.

02

ElevenLabs

VOICE

The read is generated and tuned in English or Arabic, then timed against the cut so the emphasis lands on the right word.

03

Higgsfield

B-ROLL

Product shots, inserts and motion built to carry the middle of the ad, where most creative loses the viewer.

04

Premiere & After Effects

THE CUT

Captions burned in, pacing cut to the hook, graded and exported to platform spec — 9:16, 4:5 and 1:1.

BUILT FOR TESTING

Three openings. One body.

Every script ships as three cuts. Same body, same CTA, three different ways in — so the first three seconds can be tested against each other without rebuilding the ad.

ULTIMAPEAK – HOOK TEST

3 VARIANTS

HOOK 01

I'm gonna say something

ultimapeak
Sponsored

"That's gonna make half the men in this room uncomfortable."

HOOK 02

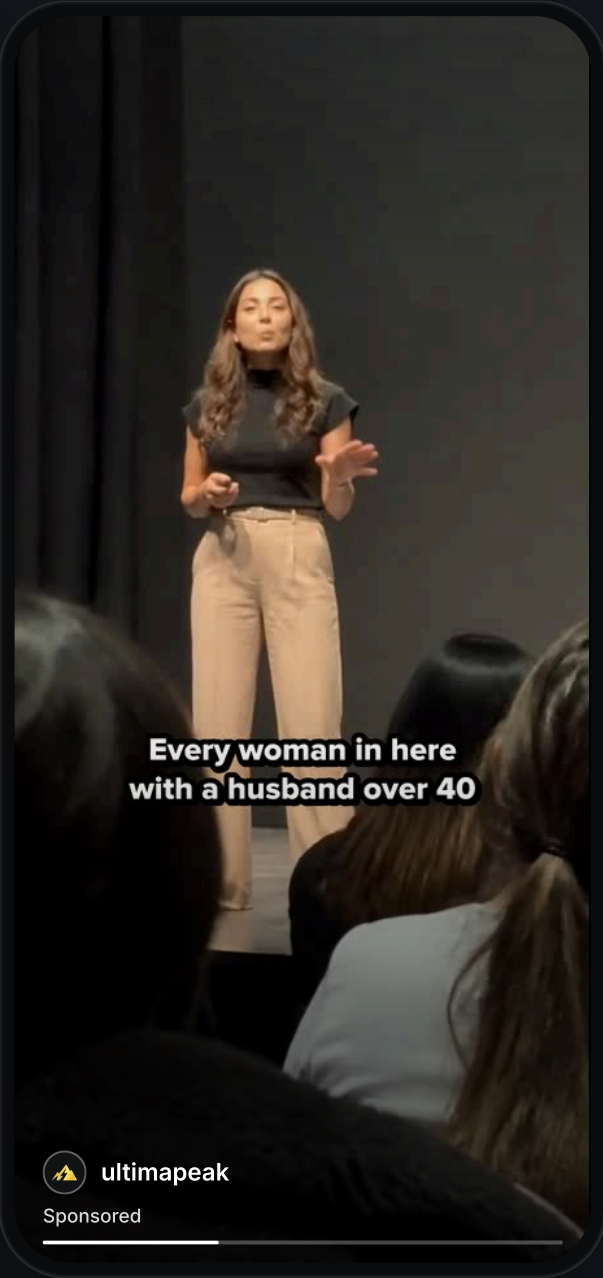

I'm about to embarrass every man in this room

ultimapeak
Sponsored

"I'm about to embarrass every man in this room."

HOOK 03

Every woman in here with a husband over 40

ultimapeak
Sponsored

"Every woman in here with a husband over 40..."

Three real cuts of the same ad. Same body, same CTA — only the opening changes. Layout shown is the delivery format, not a report.

WHO BUILDS IT

One person, script to export.

I'm Turki, an AI UGC specialist based in Cairo. The talent, the voice and the b-roll are generated per script, then cut by hand — one person from the first frame to the delivered file.

GET IN TOUCH

Send the script.
