

Scripts in. Launch-ready AI UGC out.

I'm Turki, and I've produced 50+ AI UGC ads for performance agencies. You send the script; I send back the finished ad — AI creator, voice, b-roll, captions and the edit, cut to platform spec with hooks ready to test. Your team ships more creative without adding headcount.

FEATURED WORK

Four briefs, four different production routes.

Four of the 50+ ads I've produced, chosen to show range: an AI creator talking head, a split-screen demo, a skeptic-to-believer review, and one product built as UGC and as animation. Click any phone to watch with sound.

AI CREATOR

TALKING HEAD

PROOF OVERLAYS

A car-selfie testimonial where every claim earns its place on screen. Whitening, enamel repair and xylitol each get a search result as proof before the three flavours close the ad.

IN THE CUT

- AI creator shot as a car selfie
- Search-result overlays backing each claim
- Word-by-word captions
- Flavour line-up end card

The Perfect Jean

- PROBLEM / SOLUTION
- SPLIT-SCREEN DEMO
- OFFER CLOSE

Opens on a pain every desk worker knows, nine hours in stiff denim, then proves the fix: a squat at a server rack, old jeans against new after a big lunch, and the full size range before a 15% off card.

IN THE CUT

- “Stop the desk torture” hook
- Side-by-side comparison with X / ✓ beats
- Animated size tags, W28 to W52
- Offer end card

SKEPTIC TO BELIEVER

PRODUCT CLOSE-UPS

REVIEW-LED CTA

Faux trees live or die on one objection: does it look fake? She opens as the skeptic who reads every review, then walks the camera into the leaves until the viewer stops asking. The close hands the decision back to the reviews.

IN THE CUT

- Objection-first hook
- Black-and-white "plastic tree" flashback
- Macro b-roll of leaf colour and texture
- Living-room reveal

Featured 04

Southern Fry Kings

- TWO ROUTES, ONE PRODUCT
- UGC + 3D ANIMATION
- JINGLE

The same Kings Chicken batter, built two ways to test against each other. A creator who is tired of viral food hype fries the proof on camera; then a fully animated jingle turns the method into the lyric: coat it, fry it, hear that golden crunch.

IN THE CUT

- Skeptic-hook UGC, 0:22
- 3D animated jingle, 0:21
- Product in frame through both
- Matching CTA across routes

Formats	UGC · Animation

Three openings. One body.

Scripts can ship as three cuts: same body, same CTA, three different ways in. Your media buyer tests the first three seconds against each other without a rebuild.

ULTIMAPEAK – HOOK VARIANTS

3 CUTS

HOOK 01

I'm gonna say something

ultimapeak

"That's gonna make half the men in this room uncomfortable."

HOOK 02

I'm about to embarrass every man in this room

"Every woman in here with a husband over 40..."

Three real cuts of the same UltimaPeak ad. Only the opening changes.

HOW IT WORKS WITH YOUR TEAM

You own the strategy. I take production off your plate.

No new software for your team and no one to manage. Briefs come in the way they already leave your desk; finished files go back the same way.

01

Brief
YOU SEND

The script, product link and any brand assets or reference ads, over email, Slack or a shared Drive. Your NDA first if you need one.

02

Build
I GENERATE

The AI creator, the voice read and the b-roll are generated for that script, matched to the angle rather than pulled off a template.

  

03

First cut
WITHIN 24H WHERE SCOPE
ALLOWS

Captions burned in, pacing cut to the hook, graded and framed for the placement's safe zones.

 

04

Deliver
READY TO UPLOAD

Notes go straight onto the cut. Finals in 9:16, plus 4:5 and 1:1 when needed, with hook variants on request.

WHO YOU'D WORK WITH

One producer, accountable from script to export.

I'm Turki, an AI UGC producer based in Cairo. There are no account managers between us: the person who reads your brief is the person who generates the talent and cuts the ad, so notes don't get lost in a handoff.

Agencies	Orange Leaf · Skip The Noise

BEFORE YOU SEND A SCRIPT

What agencies usually ask first.

Do you work white-label?	×
Yes. Ads are delivered unbranded for you to present as your own work, I don't contact your clients, and I'm happy to sign your NDA before seeing a brief.	
How fast is turnaround?	+
What do you need from us?	+
What do we get back?	+
How is it priced?	+
Can we start small?	+

START WITH ONE SCRIPT

Send the script. I'll build the ad.

I'll come back with a price and a delivery date. Already talking to me by email? Just reply to that thread.
